## CUSTOMER COMMUNICATION & SALES GUIDE

Prepared for Manan Sharma

# 1. Company Introduction

Hello! My name is Manan Sharma, and I'm the founder of Trueform Digital.

We are a digital solutions company focused on helping businesses establish a professional online presence through modern, responsive, and user-friendly websites.

Our goal is to understand your business, create a website that represents your brand, and help you present your services professionally online.

We offer different website development packages depending on your business requirements and budget. I'd love to learn more about your business and discuss how we can help.

# 2. Questions to Ask Every Customer

### Business basics

• What is your business or brand name? • What products or services do you offer? • Who are your target customers?

### Website requirements

• Do you need a new website or a redesign? • How many pages do you need? • Do you need contact forms, booking, payments, or a blog? • Do you have a logo, images, and content ready?

### Design and budget

• Do you have example websites you like? • What style or colors do you prefer? • Which package or budget range are you considering?

### Timeline and ownership

• When do you want the website completed? • Do you already own a domain? • Will you need ongoing maintenance?

# 3. Website Development Packages — India

### STARTER PLAN | ■13,000–■20,000

• 1–3 pages • Clean, professional design • Basic setup and functionality

### BUSINESS PLAN | ■30,000–■40,000

• 4–7 pages • Responsive design for mobile, tablet, and desktop • Basic SEO setup

### PROFESSIONAL PLAN | ■40,000–■70,000

• Custom UI design • Animations and interactive elements • CMS integration depending on project scope

WEBSITE MAINTENANCE | ■2,000–■5,000 per month, per client

• Agreed updates, content changes, basic technical checks, and support. Define included tasks and hours in the proposal.

# 4. Website Development Packages — International

### STARTER PLAN | $350–$400

• 1–3 pages • Clean, professional design • Basic setup and functionality

### BUSINESS PLAN | $450–$600

• 4–7 pages • Responsive design • Basic SEO setup

### PROFESSIONAL PLAN | $700–$1,000

• Custom UI design • Animations and interactive elements • CMS integration depending on project scope

WEBSITE MAINTENANCE | $50–$100 per month, per client

International pricing is quoted in USD. Confirm the final scope, payment method, and any applicable transaction or tax costs before the project begins.

## 5. How to Explain Pricing

Based on your requirements, I can recommend a suitable website development package.

Our pricing depends on the number of pages, design complexity, functionality, and overall project scope.

For a basic website with one to three pages, our Starter Plan ranges from ■13,000 to ■20,000 (or $350–$400 for international clients).

For a business website with four to seven pages, responsive design, and basic SEO, our Business Plan ranges from ■30,000 to ■40,000 (or $450–$600 internationally).

For a customized website with advanced UI design, animations, or CMS integration, our Professional Plan ranges from ■40,000 to ■70,000 (or $700–$1,000 internationally).

Once I understand your exact requirements, I'll provide a clear quotation explaining the work, price, and delivery timeline.

## 6. If a Customer Says the Price Is Too High

I understand that budget is important. Our pricing reflects the design, development, responsiveness, and functionality included in the project.

We can review your requirements and prioritize the most important features to find a suitable solution within your budget, without adding unnecessary complexity.

Tip: Don't immediately reduce your price. First, see whether the customer can reduce the number of pages or features.

## 7. Project Process and Delivery

1. DISCOVERY — Understand the business, audience, requirements, budget, and deadline.

2. QUOTATION AND AGREEMENT — Confirm scope, package, price, payment terms, and responsibilities.

3. PROTOTYPE — Aim to share an initial design or prototype within 2 days, once the required materials are available.

4. DEVELOPMENT — Build the agreed website, make it responsive, and implement the specified features.

5. REVIEW AND DELIVERY — Customer reviews the site, agreed revisions are completed, and the finished website is delivered.

6. MAINTENANCE — Offer ongoing maintenance separately if requested.

Timeline target: a 2-day prototype and approximately 5–6 days for full website delivery, depending on scope, feedback, and when content/assets are received. Do not promise this timeline for every project.

## 8. Payment, Domain, and Hosting

Our payment structure is simple and transparent.

We require 50% of the agreed project fee upfront to begin, and the remaining 50% upon completion, according to the agreed delivery and handover terms.

We assist with domain registration and hosting setup. These costs are separate from our website development service fee, and the customer pays those costs directly.

Before starting, confirm the project scope, timeline, included revisions, and all applicable costs.

## 9. Closing Script

Thank you for sharing your requirements with Trueform Digital.

Based on our discussion, I'll prepare a proposal outlining the recommended package, website features, pricing, timeline, and payment terms.

Once you review and approve the proposal, we can confirm the project and begin with the initial design.

If you have any questions, I'll be happy to clarify them.

Thank you for considering Trueform Digital. Design that works, results that last.

## 10. Customer Project Checklist

■ Business name and customer contact details

■ Website purpose and target audience

■ Confirmed pages and features

■ Selected package and final price

■ Domain and hosting responsibilities

■ Prototype and delivery timeline

■ Payment terms: 50% upfront, 50% on delivery

■ Number of revisions included

■ Content, images, logo, and other assets received

■ Written approval of the proposal

## 11. Key Things the Founder Should Know

• REQUIREMENTS GATHERING: Understand what the customer needs before quoting a price.

• SCOPE MANAGEMENT: Clearly state what is included and what costs extra.

• PROFESSIONAL COMMUNICATION: Respond politely, explain things simply, and provide written updates.

• PROJECT MANAGEMENT: Track deadlines, feedback, payments, and deliverables.

• TECHNICAL FUNDAMENTALS: Explain responsive design, domains, hosting, SSL, basic SEO, and website maintenance.

• WRITTEN PROPOSAL: Document requirements, package, final price, timeline, payment terms, deliverables, revisions, and exclusions.
